SONOMA COUNTY SCHOOLS
CALIFORNIA

June 20, 1919.

To Trustees of
Sonoma County, California.

Dear Sirs:-

I have just received definite information as to the effect the new laws will have so far as financial support for the elementary schools are concerned.

Each school district will receive $800 per statutory teacher and approximately $11 per child in average daily attendance. The average daily attendance for the year ending June 30th, 1918, must be taken as a basis.

This means that the smallest school--a school with an attendance of 5 plus will receive $855 in all funds together. That amount will be apportioned approximately as follows: Teacher's Fund $635; County Fund $200; Library Fund $20.

A two-teacher school will receive two times $800 plus $11 per child in average daily attendance.

The first information received was that each school would receive $900 per teacher plus $8.00 per child. This was an error as the $900 bill had been amended. However, there is but little difference in the amount that would be received. The larger schools will receive a little more and the smaller schools a little less than would have been the case under the $900 bill.

Very truly yours,

BEN F. BALLARD,

County Supt. of Schools.
